[Practice Problems for the Civil Engineering PE Exam](#) Oct 25 2019 Of all the PE exams, more people take the civil than any other discipline. The eight-hour, open-book, multiple-choice exam is given every April and October. The exam format is breadth-and-depth -- all examinees are tested on the breadth of civil engineering in the morning session; in the afternoon, they select one of five specialties to be tested on in-depth. Our civil PE books are current with the exam; they reflect the new format, and they reference all the same codes used on the exam. Practice Problems is a companion book that contains complete solutions to all the practice problems in the Reference Manual, explaining the most efficient way to reach the correct solution to each problem. -- Step-by-step solutions to all the practice problems in the Reference Manual

[Neuromarketing in 7 answers](#) Sep 28 2022 This book was created to give simple, practical and effective answers to the main questions concerning neuro-marketing and its related influences in the branch of neuroeconomics. The objective: to allow the reader a good understanding of the topic, using a text short enough to finish the reading taking advantage of the many moments of waiting and stalling of the day. Among the topics covered within it, it is possible to discover: - what neuromarketing is and how it is born; - how neuromarketing works and what levers it acts on; - what are the key elements of a neuromarketing campaign; - how to create a promotional message directed at the primitive brain; - how neuromarketing can be employed; - the basic rules of the discipline; - ethical and professional aspects of the use of neuromarketing. By reading the guide you can find the information you need to understand how neuromarketing works, what work is normally done by an expert in the field and what results can be achieved. All this is done through a 7-answer program designed to allow the reader to quickly acquire a good level of expertise on the subject, thus supporting effective conversations with suppliers and colleagues.

[The HM Learning and Study Skills Program](#) Aug 03 2020 The hm Learning and Study Skills Program: Level II was designed to provide an introduction to learning and study skills for 8th, 9th, and 10th grade students through a series of activity-oriented units. It is structured on the assumption that an activity-oriented lesson is the most effective instructional strategy for the teaching of study skills: more succinctly, that "learning by doing" is the best way 'study smart'. The Level II Teacher's Guide includes a pretest, a wide variety of teaching suggestions, unit summaries, activities for retrieval and closure as well as teaching adaptations through the use of technology. It was published to help teachers assist students in the development of essential study skills and to reinforce their existing strategies that work. The Program supports academic independence for students that have a wide range of ability with college and career readiness as a tangible and realistic goal.
