Cold War: The Essential Reference Guide Oct 29 2022
The impact of the Cold War is still being felt around the world today. This insightful single-volume reference captures the events and personalities of the

era, while also inspiring critical thinking about this still-controversial period. • Several analytical essays by prominent historians, plus 85 additional A-Z reference entries about conflicts, incidents, leaders, and issues • 35 examples of relevant primary source documents, including speeches, treaties, policy statements, and letters, such as the Marshall Plan and Winston Churchill's "Iron Curtain" speech • A detailed chronology of important events that occurred before, during, and after the Cold War • Numerous maps and images of key leaders and events • A comprehensive bibliography of print resources
The Routledge Handbook of

American Military and Diplomatic History Apr 30 2020
The Routledge Handbook of U.S. Military and Diplomatic History provides a comprehensive analysis of the major events, conflicts, and personalities that have defined and shaped the military history of the United States in the modern period. Each chapter begins with a brief introductory essay that provides context for the topical essays that follow by providing a concise narrative of the period, highlighting some of the scholarly debates and interpretive schools of thought as well as the current state of the academic field. Starting after the Civil War, the

chapters chronicle America's rise toward empire, first at home and then overseas, culminating in September 11, 2001 and the War on Terror. With authoritative and vividly written chapters by both leading scholars and new talent, maps and illustrations, and lists of further readings, this state-of-the-field handbook will be a go-to reference for every American history scholar's bookshelf.

Guide to National Security Issues: Theory of war and strategy Dec 07 2020 "This edition of the U. S. Army War College guide to national security policy and strategy continues to reflect the structure and approach of the core national security strategy and policy curriculum at the War College. The fifth edition is published in two volumes that correspond roughly to the Department of National Security and Strategy's core courses: "Theory of war and strategy" and "National security policy and strategy." Like previous editions, this one is based on its predecessor, but contains both updates and new scholarship. Over a third of the

Where To Download dl3.pling.com on November 30, 2022 Read Pdf Free

chapters are new or have undergone significant rewrites. Many chapters, some of which appeared for years in this work, have been removed. Nevertheless, the book remains unchanged in intent and purpose. Although this is not primarily a textbook, it does reflect both the method and manner that the U.S. Army War College uses to teach strategy formulation to America's future senior leaders. The book is not a comprehensive or exhaustive treatment of either strategic theory or the policymaking process. Both volumes are organized to proceed from the general to the specific. Thus, the first volume opens with general thoughts on the nature

and theory of war and strategy, proceeds to look at the complex aspect of power, and concludes with specific theoretical issues. Similarly, the second volume begins by examining the policy/strategy process, moves to a look at the strategic environment, and concludes with some specific issues. This edition continues the effort begun in the 4th edition to include several short case studies to illustrate the primary material in the volume"--Introd. The Columbia Guide to the Cold War Aug 27 2022 The Cold War was the longest conflict in American history, and the defining event of the second half of the twentieth century. Since its recent and

abrupt cessation, we have only begun to measure the effects of the Cold War on American, Soviet, post-Soviet, and international military strategy, economics, domestic policy, and popular culture. The Columbia Guide to the Cold War is the first in a series of guides to American history and culture that will offer a wealth of interpretive information in different formats to students, scholars, and general readers alike. This reference contains narrative essays on key events and issues, and also features an A-to-Z encyclopedia, a concise chronology, and an annotated resource section listing books, articles, films, novels, web sites, and CD-ROMs on Cold

War themes.

[The Routledge Handbook of the Cold War](#) Jan 20 2022 This new Handbook offers a wide-ranging overview of current scholarship on the Cold War, with essays from many leading scholars. The field of Cold War history has consistently been one of the most vibrant in the field of international studies. Recent scholarship has added to our understanding of familiar Cold War events, such as the Korean War, the Cuban Missile Crisis and superpower détente, and shed new light on the importance of ideology, race, modernization, and transnational movements. The Routledge Handbook of the Cold War draws on the wealth

of new Cold War scholarship, bringing together essays on a diverse range of topics such as geopolitics, military power and technology and strategy. The chapters also address the importance of non-state actors, such as scientists, human rights activists and the Catholic Church, and examine the importance of development, foreign aid and overseas assistance. The volume is organised into nine parts: Part I: The Early Cold War Part II: Cracks in the Bloc Part III: Decolonization, Imperialism and its Consequences Part IV: The Cold War in the Third World Part V: The Era of Detente Part VI: Human Rights and Non-State Actors Part VII:

Nuclear Weapons, Technology and Intelligence Part VIII: Psychological Warfare, Propaganda and Cold War Culture Part IX: The End of the Cold War This new Handbook will be of great interest to all students of Cold War history, international history, foreign policy, security studies and IR in general.

[The Palgrave Handbook of Cold War Literature](#) Oct 17 2021

This book offers a comprehensive guide to global literary engagement with the Cold War. Eschewing the common focus on national cultures, the collection defines Cold War literature as an international current focused on the military and ideological conflicts of the age and characterised by styles and approaches that transcended national borders. Drawing on

specialists from across the world, the volume analyses the period's fiction, poetry, drama and autobiographical writings in three sections: dominant concerns (socialism, decolonisation, nuclearism, propaganda, censorship, espionage), common genres (postmodernism, socialism realism, dystopianism, migrant poetry, science fiction, testimonial writing) and regional cultures (Asia, Africa, Oceania, Europe and the Americas). In doing so, the volume forms a landmark contribution to Cold War literary studies which will appeal to all those working on literature of the 1945-1989 period, including specialists in

to sites - just install the disc, go online, and link directly to the sites; and, also provides a practical introduction to web-based research for students and history buffs of all ages. *How We Forgot the Cold War* Aug 03 2020 "Here's a book that would've split the sides of Thucydides. Wiener's magical mystery tour of Cold War museums is simultaneously hilarious and the best thing ever written on public history and its contestation." —Mike Davis, author of *City of Quartz* "Jon Wiener, an astute observer of how history is perceived by the general public, shows us how official efforts to shape popular memory of the Cold War have

failed. His journey across America to visit exhibits, monuments, and other historical sites, demonstrates how quickly the Cold War has faded from popular consciousness. A fascinating and entertaining book." —Eric Foner, author of *Reconstruction: America's Unfinished Revolution, 1863-1877* "In *How We Forgot the Cold War*, Jon Wiener shows how conservatives tried—and failed—to commemorate the Cold War as a noble victory over the global forces of tyranny, a 'good war' akin to World War II. Displaying splendid skills as a reporter in addition to his discerning eye as a scholar,

this historian's travelogue convincingly shows how the right sought to extend its preferred policy of 'rollback' to the arena of public memory. In a country where historical memory has become an obsession, Wiener's ability to document the ambiguities and absences in these commemorations is an unusual accomplishment." —Rick Perlstein, author of *Nixonland: The Rise of a President and the Fracturing of America* "In this terrific piece of scholarly journalism, Jon Wiener imaginatively combines scholarship on the Cold War, contemporary journalism, and his own observations of various sites commemorating the era to

describe both what they contain and, just as importantly, what they do not. By interrogating the standard conservative brand of American triumphalism, Wiener offers an interpretation of the Cold War that emphasizes just how unnecessary the conflict was and how deleterious its aftereffects have really been.”—Ellen Schrecker, author of *Many Are The Crimes: McCarthyism in America*

and subtle, of the Cold War on American culture • Supplies a thorough annotated bibliography that includes primary and secondary sources, both standards and very recent studies—ideal for students and others interested in research • Constitutes a convenient research tool for high school and undergraduate students writing term papers or preparing theses on Cold War-related topics

Mapping the Cold War Jan 08 2021 In this fascinating history of Cold War cartography, Timothy Barney considers maps as central to the articulation of ideological tensions between American national interests and

Where To Download dl3.pling.com on November 30, 2022 Read Pdf Free

international aspirations. Barney argues that the borders, scales, projections, and other conventions of maps prescribed and constrained the means by which foreign policy elites, popular audiences, and social activists navigated conflicts between North and South, East and West. Maps also influenced how identities were formed in a world both shrunk by advancing technologies and marked by expanding and shifting geopolitical alliances and fissures. Pointing to the necessity of how politics and values were "spatialized" in recent U.S. history, Barney argues that Cold War-era maps themselves had rhetorical lives

Where To Download World History Study Guide Cold War Read Pdf Free

that began with their conception and production and played out in their circulation within foreign policy circles and popular media. Reflecting on the ramifications of spatial power during the period, *Mapping the Cold War* ultimately demonstrates that even in the twenty-first century, American visions of the world--and the maps that account for them--are inescapably rooted in the anxieties of that earlier era. Cold War Jun 13 2021 Two captivating manuscripts in one book: The Cold War The Space Race

[The Oxford Handbook of U.S. National Security](#) Jun 20 2019

National security is pervasive in government and society, but there is little scholarly attention devoted to

understanding the context, institutions, and processes the U.S. government uses to promote the general welfare. The Oxford Handbook of U.S. National Security aims to fill this gap. Coming from academia and the national security community, its contributors analyze key institutions and processes that promote the peace and prosperity of the United States and, by extension, its allies and other partners. By examining contemporary challenges to U.S. national security, contributors consider ways to advance national interests. The United States is entering uncharted waters. The assumptions and verities of the

Washington consensus and the early post-Cold War have broken down. After 15 years of war and the inability of two presidents to set a new long-term U.S. foreign policy approach in place, the uncertainties of the Trump administration symbolize the questioning of assumptions that is now going on as Americans work to re-define their place in the world. This handbook serves as a "how to" guide for students and practitioners to understand the key issues and roadblocks confronting those working to improve national security. The first section establishes the scope of national security highlighting the important

debates to bridge the practitioner and scholarly approaches to national security. The second section outlines the major national security actors in the U.S. government, describes the legislative authorities and appropriations available to each institution, and considers the organizational essence of each actor to explain behavior during policy discussions. It also examines the tools of national security such as diplomacy, arms control, and economic statecraft. The third section focuses on underlying strategic approaches to national security addressing deterrence, nuclear and cyber issues, and multilateral

Where To Download World History Study Guide Cold War Read Pdf Free

approaches to foreign policy. The final section surveys the landscape of contemporary national security challenges. This is a critical resource for anyone trying to understand the complex mechanisms and institutions that govern U.S. national security. [The Clever Teens' Guide to the Cold War](#) Dec 19 2021 The Clever Teens' Guide to The Cold War provides a concise account of the political tensions that arose as the world rebuilt after World War Two - an era beset by the constant fear of nuclear weapons and the looming threat of a Third World War. Oxford Handbook of the Cold War offers a broad reassessment of the period war based on new conceptual frameworks developed in the field of international history. Nearing the 25th anniversary of its end, the cold war now emerges as a distinct period in twentieth-century history, yet one which should be evaluated within the broader context of global political, economic, social, and cultural developments. The editors have brought together leading scholars in cold war history to offer a new assessment of the state of the field and identify

fundamental questions for future research. The individual chapters in this volume evaluate both the extent and the limits of the cold war's reach in world history. They call into question orthodox ways of ordering the chronology of the cold war and also present new insights into the global dimension of the conflict. Even though each essay offers a unique perspective, together they show the interconnectedness between cold war and national and transnational developments, including long-standing conflicts that preceded the cold war and

persisted after its end, or global transformations in areas such as human rights or economic and cultural globalization. Because of its broad mandate, the volume is structured not along conventional chronological lines, but thematically, offering essays on conceptual frameworks, regional perspectives, cold war instruments and cold war challenges. The result is a rich and diverse accounting of the ways in which the cold war should be positioned within the broader context of world history.
